Member National Honors Transfer Society (Tau Sigma): 2016–Present

Questions and Answers — *A Fullstack Stackoverflow style app*

Designed and Created both the front and back end for a forum style app. I used Javascript, React, Express, Bootstrap and SASS for the front end and MongoDb and Javascript for the back end.

BucketList — *Fullstack Bucketlist app*

Along with my team I helped to design and create a Fullstack Bucketlist app that allows users to keep track of goals they would like to accomplish. We used React, SASS, Bootstrap and Express for the front end and Mongoose and MongoDB for the backend.

Personal Library — *Fullstack Library app*

Created both the front and back end for a personal Library App. I used Javascript, React, Express and SASS for the front end and MongoDb and Javascript for the back end.

Tic Tac Toe — *Client side for Tic Tac Toe*

Created the front end of a tic tac toe game using Javascript for the logic and HTML/CSS.
